

North Alabama Dental Assisting Program

School Address: 1815 Somerville Road SE, Decatur, AL 35601

Mailing Address: P.O. Box 213, Hartselle, AL 35640

Clinical Director: Maggie McKelvey
256-227-4313

Dear Interested Student,

Started in 1987, this program was the first in the country to train dental assistants in an actual practicing dental office. All classes will be held in our office and you learn from dental professionals who practice and teach the most current up-to-date methods. Our next dental assisting class will be:

April 27th - July 13th

In addition to this letter, we have enclosed some information about the course as well as a registration form if you wish to reserve a place in the class. Since the classes fill up quickly, we suggest that you mail in your deposit as soon as possible to reserve a spot. By enrolling early, you can receive a significant discount on the cost of tuition! If you would like to visit our facility, please call Maggie McKelvey, Program Director, at 256-227-4313 and a tour of our office and training facility can be arranged. We offer several tuition payment options, which can lower your payments to approximately \$100 per month.

There are a few other dental assisting programs to choose from in this area; however, those programs are significantly more expensive and also can take up to a year to complete. If you are interested in receiving a quality teaching program with an affordable cost, we are the right program for you! We don't believe in wasting your time teaching you subjects that do nothing more than extend the program from six months to a year as a means to justify a tuition of \$10,000 or more.

We have been told by students in some of these other programs that they are often taught using antiquated or non-working equipment, and do not practice many of the essential dental assistant skills on real patients AT ALL!! You will be taught by dental professionals who actually practice dentistry daily and **NOT** in a vocational school classroom using out-of-date equipment.

The course is designed to give the student maximum "hands-on" training and experience in a real, working dental office. Our facility is equipped with the very latest

state-of-the-art dental equipment and audio-visual teaching aids. You will be taught the most up-to-date techniques using the very best technology available. The teaching is stimulating, fast paced, and relies heavily on individual participation. Each group is no larger than one instructor per four students. This insures personal attention and a worthwhile learning experience. You will not have time to be bored!

A career of helping people improve their dental health will be rewarding and enormously satisfying for you. No two days will ever be the same and your job will continuously renew itself. It is a career that will always be in demand and in need of capable, trained and caring dental assistants. It could be a career for you!

We are very successful at placing our graduates into permanent dental positions around the area. Dentists from surrounding areas call our school to request our students and this placement service is FREE to both dentists and students. Students from our program are being offered positions starting at an average of \$10.00 to \$15.00 per hour and higher.

**Classes fill up quickly so don't wait
until the last minute to register**

Please read over the information and call if you have any questions. The staff and I look forward to having you in our next class!

Start Your New Career Today!

Sincerely,

Maggie McKelvey
Program Director
